---

### OBJECTIVE

Game design graduate seeking an entry-level position to apply my experiences in full stack web development, UI programming, UX design/engineering, project management, teamwork, and leadership. Available July 2024.

### EXPERIENCE

**Changeling VR**, Rochester, NY

January 2024 - May 2024

Web Developer Intern

- Redesigned and programmed four pages of the Changeling VR Project's official website in addition to one of the web minigames.
- Assisted the lead developer in sprint management, project documentation, and team coordination.

**Great Lakes Gaming**, Rochester, NY

May 2022 - Present

3D Modeling and Animation Intern, Freelance 3D Generalist

- Bolstered the company's repository of Valorant and League of Legends content by producing numerous 3D assets, textures, and renders.
- Collaborated with other interns and staff to work on advertisements, game development, and sponsorship events.
- Assets are used to promote esports competitions, including the 100th Pit of Valor, the company's largest Valorant tournament to date.

### PROJECTS

**Changeling VR Official Website** (Professional)

January 2024 - May 2024

Technologies used: Javascript, Node.js, React.js, Vue, HTML5, CSS3, Bootstrap, Visual Studio Code

- Redesigned and updated the main and character pages of the official website with .
- Developed and improved the existing browser games associated with the game characters.

**Netflix Clone** (Academic)

November 2023 - December 2023

Technologies used: Visual Studio Code, Heroku, CircleCI, MongoDB, Redis Cloud, Javascript, React, Handlebars, CSS3

- Individually created a clone of Netflix complete with account and profile creation/management.
- Utilize database and caching services to store and track user data/activities.

**Color Palette Generator** (Academic)

October 2023

Technologies used: Visual Studio Code, Javascript, HTML5, CSS3,

- Individually created a color palette generator using a custom backend API.
- Allow users to maintain and edit server data saved with Heroku cloud services.

**Audio Visualizer** (Academic)

March 2023

Technologies used: Visual Studio Code, Javascript, HTML5, CSS3, Web Audio API

- Individually created a web page that created animated patterns based on music from Pyotr Ilyich Tchaikovsky's *The Nutcracker*.
- Allow users to edit and change settings and modes for the web page's audio and visuals..
